

Appl. No. 10/657,881

Amdt. dated December 29, 2005

Reply to Office action of December 02,2005

Amendments of the Specification

Please amend the Abstract of the Disclosure, with:

A tool kit for a radio controlled vehicle holds any desired parts and equipment for that vehicle in a desired position, especially a position adjacent to a racing area. The tool kit contains elements for storing items such as a screw driver, plug wrench, glow plug igniter, electric vehicle starter, and an engine stopper. Spare parts, such as glow plugs, are also capable of being stored in the tool kit.
